**Introduction to Managing Technology (Engineering Management Series, 4)** Mario Cardullo

Rapid changes in technology require managers to have the capability to adjust quickly and effectively. This book discusses all aspects of these changes, taking a holistic approach that will enable the technology manager to anticipate and adjust management strategy in order to maximize the effectiveness of an enterprise. A quantitative and qualitative approach to the new field of Management of Technology (MOT) is presented, which benefits from the most recent research in the field. Professor Cardullo brings forty years of experience in the field of technology management to the material contained in the text. His experience ranges from the rocket propulsion to advanced electronics and communications systems.
