This book is an entertaining and practical guide for every trainer and performance improvement professional as it tackles the three universal and persistent questions of the profession—how do learners learn, why do learners learn, and how do you ensure that learning sticks. This interactive book with its fun and breezy style illustrates the authors' point of view that learning should be active and enjoyable. Playful illustrations demonstrate the solid research that backs up the authors' contentions and help readers separate learning myth from fact to dispel beliefs and practices that often harm the instructional process.
