Bioaugmentation for Groundwater Remediation (SERDP ESTCP Environmental Remediation Technology)

Bioaugmentation for Groundwater Remediation (SERDP ESTCP Environmental Remediation Technology)

This volume provides a review of the past 10 to 15 years of intensive research, development and demonstrations that have been on the forefront of developing bioaugmentation into a viable remedial technology. This volume provides both a primer on the basic microbial processes involved in bioaugmentation, as well as a thorough summary of the methodology for implementing the technology. This reference volume will serve as a valuable resource for environmental remediation professionals who seek to understand, evaluate, and implement bioaugmentation.
