Combined and Hybrid Adsorbents: Fundamentals and Applications (Nato Security through Science Series C:)

Combined and Hybrid Adsorbents: Fundamentals and Applications (Nato Security through Science Series C:)

This book follows up an Advanced Research Workshop dedicated to the subject of adsorption. It presents an up-to-date review of the latest achievements in the synthesis, characterization and applications of hybrid organic-inorganic materials and of carbon and combined adsorbents. The modeling of the adsorption process, including the simulation of carbon masks used for both civil and military protection purposes is also addressed. Includes applications in environmental, military and post-disaster situations.
