Sustainability explores questions around the central concept of sustainability: What are its foundations and politics? How do crises challenge sustainability? How is sustainability connected to local and transnational environments? How is sustainability connected to tourism and recreation? Readings by a range of ecologists, urban planners, philosophers, geographers, reporters, artists, and ordinary citizens take up these questions and more. Questions and assignments for each selection provide a range of activities for students. The Web site for the Spotlight Series offers comprehensive instructor support with sample syllabi and additional teaching resources.

The Bedford Spotlight Reader Series is an exciting new line of single-theme readers, each featuring Bedford's trademark care and quality. The readers in the series collect carefully chosen readings sufficient for an entire writing course—about 30 selections—to allow instructors to provide carefully developed, high-quality instruction at an affordable price. Bedford Spotlight Readers are designed to help students make inquiries from multiple perspectives, opening up topics such as money, food, sustainability, and gender to critical analysis. The readers are flexibly arranged in thematic chapters, each focusing in depth on a different facet of the central topic. An Editorial Board of more than a dozen compositionists at schools focusing on specific themes have assisted in the development of the series.
