Materials for Architects and Builders, Third Edition

Arthur Lyons

Materials for Architects and Builders, Third Edition Arthur Lyons

Materials for Architects and Builders provides an introduction to a wide range of building materials. It explains in detail the manufacture, key physical properties, specification and uses of the standard building products, everything a student would need to know. The book also describes many recent technological innovations and rediscovered materials, reflecting an increased concern for environmental issues within the Industry.

This new edition has been completely updated to reflect the amended Building Regulations, the latest British and European Standards as well as incorporating current advice and information from the Building Research Establishment.

Dr Arthur Lyons is a teacher fellow and principal lecturer in building materials at the Leicester School of Architecture within the Faculty of Art and Design at De Montfort University, UK. He has taught the subject of building materials for thirty five years to a wide range of students within the built environment disciplines.

- * The text covers the widest range of materials from standard products to ecofriendly materials and components
- * Up-to-date with respect to the latest Building Regulations and European & British Standards.
- * Well illustrated with many colour images showing typical use of the materials in high quality construction.
