You learned your own language naturally and enjoyably: now you can learn Spanish in the same way. Use the unique method perfected over fifty years by the celebrated psychologist and linguist Michel Thomas.

step, and you don't move on until you've absorbed and understood the previous point. And, as Michel Thomas said, "What you understand, you know; and what you know, you don't forget." With parallels to the way you learned your own language, each language is learned in "real-time" conditions. There is no need to stop for homework, additional exercises or vocabulary memorization.

The "virtual" classroom situation on the recording lets you learn with others. You enjoy their success, and you learn from their mistakes. The students on the recordings are not reading from scripts and they have received no additional instruction or preparation - just the guidance you hear on the recording. You, as the learner, become the third student and participate actively in the class.

This method works with your brain, helping you to build up your Spanish in manageable, enjoyable steps by thinking out the answers for yourself. You learn through listening and speaking without the pressure of writing or memorizing. You pick up the language naturally and unforgettably.
