Sturkie's Avian Physiology, Sixth Edition

Sturkie's Avian Physiology, Sixth Edition

Sturkie's Avian Physiology is the classic comprehensive single volume on the physiology of domestic as well as wild birds. The Sixth Edition is thoroughly revised and updated, and features several new chapters with entirely new content on such topics as migration, genomics and epigenetics. Chapters throughout have been greatly expanded due to the many recent advances in the field. The text also covers the physiology of flight, reproduction in both male and female birds, and the immunophysiology of birds.

The Sixth Edition, like the earlier editions, is a must for anyone interested in comparative physiology, poultry science, veterinary medicine, and related fields. This volume establishes the standard for those who need the latest and best information on the physiology of birds.

- Includes new chapters on endocrine disruptors, magnetoreception, genomics, proteomics, mitochondria, control of food intake, molting, stress, the avian endocrine system, bone, the metabolic demands of migration, behavior and control of body temperature
- Features extensively revised chapters on the cardiovascular system, pancreatic hormones, respiration, pineal gland, pituitary gland, thyroid, adrenal gland, muscle, gastro-intestinal physiology, incubation, circadian rhythms, annual cycles, flight, the avian immune system, embryo physiology and control of calcium.
- Stands out as the only comprehensive, single volume devoted to bird physiology
- Offers a full consideration of both blood and avian metabolism on the companion website (<http://booksite.elsevier.com/9780124071605>). Tables feature hematological and serum biochemical parameters together with circulating concentrations of glucose in more than 200 different species of wild birds

Therefore not at all of book are generally make you bored, any it offers up you feel happy, fun and relax. Try to choose the best book in your case and try to like reading which.

William Culley:

As a student exactly feel bored to be able to reading. If their teacher questioned them to go to the library in order to make summary for some book, they are complained. Just very little students that has reading's soul or real their hobby. They just do what the trainer want, like asked to go to the library. They go to at this time there but nothing reading really. Any students feel that reading through is not important, boring and also can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this Sturkie's Avian Physiology, Sixth Edition can make you feel more interested to read.
