The Selective Environment

Dean Hawkes, with Jane McDonald, Koen Steemers

The Selective Environment Dean Hawkes, with Jane McDonald, Koen Steemers

The complex art of architecture embraces all of the concerns of the world's cultures. It meets the fundamental needs for shelter from the elements, but, almost from its origins, has acquired other purposes and meanings. *The Selective Environment* is an approach to environmentally responsive architectural design that seeks to make connections between the technical preoccupations of architectural science, and the necessity, never more urgent than today, to sustain cultural identity at a time of rapid global, technological change.
