The Source of Innovation in China: Highly Innovative Systems (Palgrave Studies in Chinese Management Research)

The Source of Innovation in China: Highly Innovative Systems (Palgrave Studies in Chinese Management Research)

This book discusses the rise of innovation in China and its source for this rapid increasing innovative capability. Focusing on the enterprises' innovation performance, not only technological innovation, but also process and strategy innovation is further debated surrounding the issue.

The authors propose a high innovation system for an effective innovation performance in China. After an overview of the competitive advantages of Chinese enterprises based on low cost or on innovation, the book distinguishes different characteristics of Chinese innovation from the angle of organizational innovation type, ambidextrous effects and dynamic perspective of Chinese traditional culture, network-based innovation system, and the organizational innovative human system before discussing the challenges that Chinese enterprises face when they multinationalize overseas.

Contrasting popular understanding of Chinese competitive advantages based on low labour, the authors highlight rising power of Chinese high performers in terms of innovation capability. Chinese enterprises' cases are employed for example illustration.
