The oil supplies along the west coast of the US mysteriously start to vanish without a trace, and the only clue is a dollar size crystal, which appears to be alive.

In this action packed science fiction adventure from bestselling author, James M. Corkill, geologist Alex Cave is on vacation sailing the waters of the Puget Sound when he sees a brilliant flash of light from an oil tanker. He changes course to help, only to discover there was no explosion and no one onboard, even though all the lifeboats are still secured to the railings.

The next morning, the crew is found frozen on a mountain hundreds of miles inland. Even more unsettling, the tanker left Valdez, Alaska with a full load of heavy crude, but the oil has mysteriously vanished without a trace. When he tells the Director of National Security about the unusual circumstances, he learns the same thing just happened to another tanker in Houston, Texas. The oil in storage tanks of refineries along the west coast begins to vanish, and panic grips the nation when the lack of fuel keeps basic necessities from reaching the inner cities.

When he begins the investigation, his only clue is a dollar size crystal found in the hold of the empty tanker, which appears to be alive. The investigation leads him to the remnants of a spaceship at Area 51, and a descendent of the first humans to occupy this planet, 180 million years ago. He has no idea what he is about to discover will change the fate of civilization forever.

Can Alex and his friends find a solution for this dire situation? Find out in this epic adventure by James M Corkill.
